Student feedback mechanism on Institutional Governance/faculty performance

To ensure timely content coverage of the various subjects in the class in an effective manner, the institute has a proper feedback mechanism. Students, without disclosing their identity, are asked to provide their feedback online based on certain parameters on a scale of 1 to 5.

Once feedback from the students is received, it is analyzed, and the cases which need attention are identified. Thereafter, the Director – IT may detail the Course Chairperson or meet with the concerned faculty members and apprise of their feedback based on the parameters. The concerned faculties are then counseled and advised to interact with the students and take corrective measures to resolve the problem.
