I.T.S truly build managers who are not only updated with the present, but also capable of adapting themselves quickly to the future. Various conference and seminars by industry expert enhanced my knowledge and participation in college fest gave me exposure to test my knowledge and boosted my confidence, that I was going the right way. Even today, I seek the advice of my faculties whenever necessary and they are rather exited to extend a helping hand where ever needed in my career.

An Alma mater that brought a transformational change from a graduate to professional within me, ITS gives a great platform to experiment and fail which is crucial element to success, Exceptional support from faculty and staff members. Overall an A-tier institute with excellent support functions to develop leaders for tomorrow.
Impressed with the quality of the faculty and the students. The interaction was meaningful and student committing curious more interface needed between academia and industry.
