INTERNATIONAL CONFERENCE

Global Business Resilience and Techno-Managerial Innovation (GBRTMI - 2026)

Conference Overview:

In today's hyper-connected and rapidly evolving business landscape, global organizations are navigating complex challenges — from digital transformation and artificial intelligence to sustainability and workforce agility. The ability to adapt, innovate, and lead with resilience has become the cornerstone of long-term organizational success.

The synergy between technology and management offers powerful avenues for transformation — enabling smarter decision-making, enhancing competitiveness, and fostering sustainable business ecosystems.

Recognizing these dynamics, the Institute of Technology and Science, Ghaziabad and ITS School of Management, Ghaziabad propose to organize the International Conference on Global Business Resilience and Techno-Managerial Innovation (GBRTMI 2026) on March 13–14, 2026. The conference will serve as a global platform for academicians, researchers, industry professionals, and policymakers to deliberate on the role of resilient management, leadership and technological innovation in shaping the future global business landscape.

Objectives:

The International Conference on "Global Business Resilience and Techno-Managerial Innovation (GBRTMI - 2026)" aims to provide a platform for academicians, industry experts, practitioners, professionals, researchers and policy makers from different fields to engage in multidisciplinary dialogue and collaboration, bringing together diverse perspectives to address the complex challenges and opportunities of the 21st century. This conference will contribute to shaping the global agenda and advancing our understanding of how to achieve business and society goals in a rapidly changing world.

The conference aims to:

1. Explore emerging paradigms of business resilience, innovation, and leadership in a technology-driven environment.
2. Examine the strategic integration of AI, data analytics, and digital transformation in management practices.
3. Encourage cross-disciplinary dialogue between academia, industry, and policymakers to foster innovation and sustainable growth.
4. Identify the impact of technological disruption on traditional business functions.
5. Disseminate cutting-edge research and case studies on organizational agility, sustainability, and transformation.
6. Facilitate global networking and collaboration opportunities among researchers and practitioners.

Focus Areas

- To facilitate discussion on global business environment w.r.t Techno- Management Innovations and Sustainability of Business.
- To bridge the gap between academic wisdom and practical knowledge.
