Wunderlist: The App to organize yourself and your business

There are a lot of organization apps and platforms available, and choosing the right one can be rough. Now add in the need for collaboration and things get even trickier. So now the question   is that is there any app that can keep track of groceries, help manage projects, enable team communication, and do it all in a platform-neutral manner? And the answer is yes, it is Wunderlist

1. What Wunderlist does?

Wunderlist's purpose is right in its name: It is a list-making app. Saying that doesn't do it justice though its numerous features and capabilities that make list creating, keeping, updating, sorting, and sharing a snap.

Say you want to keep your grocery list in digital form instead of on the fridge. Just use the pre-created grocery list that comes with Wunderlist, which you can add items to simply by tapping or clicking on the list and typing away.

Creating lists is quick both in the web app and the mobile versions and everything syncs automatically so you won't ever have to worry about not having the latest updates to a list you or someone else modifies.

2. How Wunderlist is better?

As already mentioned above, Wunderlist isn't alone in the note-taking app world. What makes it stand out is its simplicity and effectiveness: Wunderlist isn't trying to be all things, and that makes it better.

There isn't a lot of guesswork with Wunderlist. Every button and option is right where you'd expect it to be, and adding things like notes and attachments is clear and confusion-free.

One of the real standout Wunderlist features is Mail to Wunderlist. Any email account that you add and verify on your Wunderlist account is capable of sending an email to Wunderlist, provided you turn that feature on first.

At that point you can forward any email to me@wunderlist.com and it will appear right in your inbox. You can also compose new messages if you need to add an item and don't want to open up the app.

Wunderlist is simple, but that doesn't mean there aren't dozens of amazing features that are too numerous to share here. Suffice it to say, if you are a person who uses the built-in iOS or Android Reminder app you will be pleasantly surprised at all the features you didn't know you needed.

3. Who should use Wunderlist

Everyone, from the individual to the enterprise, can make use of Wunderlist. It is free and available on iOS, Android, Windows, macOS, as a Chrome addon, and as a web app. The free version has some restrictions; though the casual user is unlikely to be affected by them (5MB file attachment capacity, 25 shares per list, and 25 subtasks per item). Paying $4.99 per month unlocks pro features and removes those restrictions.

There is also Wunderlist for Business that's perfect for businesses of any size, and it adds some great enterprise-level collaboration features that make it a lot more like Ever note than just a simple list and to-do app.

Wunderlist also features terrific integration with Outlook, which is unsurprising given that it was purchased by Microsoft in 2015. If you work in an environment that uses Outlook.com, Outlook 2013, Outlook 2016, or Office 365 you can use the Wunderlist Outlook extension.

There is no reason not to give Wunderlist a try, even if you use another platform. You will be pleased with the features, ease of use, great user interface, and universal access. Head on over to Wunderlist.com to check it out.

Introduction to R

R is a programming language and software environment for statistical computing and graphics supported by the R Foundation for Statistical Computing. R was created by Ross Ihaka and Robert Gentleman at the University of Auckland, New Zealand was officially released on April 1, 1997. R language, written in C, Fortran, and R, is an open source licensed under GNU General Public License.

R language is used with the R environment.

The R Environment

R is an integrated suite of software facilities for data manipulation, calculation and graphical display. It includes

- an effective data handling and storage facility,
- a suite of operators for calculations on arrays, in particular matrices,
- a large, coherent, integrated collection of intermediate tools for data analysis,
- graphical facilities for data analysis and display either on-screen or on hardcopy, and
- a well-developed, simple and effective programming language which includes conditionals, loops, user-defined recursive functions and input and output facilities.

What Operating Systems are supported?

- Windows 7.0 (SP1), 8.0, 8.1, 10, Windows Server 2008 R2 (SP1) and 2012
- Linux Ubuntu 12.04, 14.04, 15.04
- CentOS / Red Hat Enterprise Linux 5.8, 6.5, 7.1
- SUSE Linux Enterprise Server 10 & 11 & OpenSUSE 13.1
- Mac OS X Mavericks (10.9), Yosemite (10.10), El Capitan (10.11)

R popularity

Recent growth in big data and need of big data analysis, charts, and reports, R popularity is growing day by day due to its use for data analysis, data manipulation, calculation and graphical display.

The following are the free resources related to R language:

1. Introduction to R

This is an introduction to R language documentation by R core team. This manual provides information on data types, programming elements, statistical modeling and graphics.

2. Quick-R by statmethods.net

A website maintained by Rob Kabacof to learn R.

3. Tutorial R by Datacamp

This site generously supported by Datacamp. Datacamp offers a free interactive introduction to R coding tutorial as an additional resource. These materials are designed to offer an introduction to the use of R. It is not exhaustive, but is designed to just provide the basics. It has been developed for students who are new to R but have had some basic experience working with computers.

4. R4stats.com

A website maintained by Bob Muenchen provides information on analysis the world of data science, and to help people learn to use R.

5. Cookbook for R

Cookbook for R is an online resource website to learn basic functions of R.

6. R Studio

RStudio is an IDE that makes R easier to use and more productive. RStudio combines a set of productivity tools into a single environment including code editor and debugger. RStudio is available in two flavors, desktop and server. The desktop R Studio can be installed on a Windows, Mac, Linux machine. The server R Studio can be installed and accessed direct from one of Debian/Ubuntu, RedHat/CentOS, and SUSE Linux servers

Technovation-2017- an inter-institutional Technical Fest

On 1st April, 2017 Department of I.T. in association with CSI Student Branch at I.T.S, Mohan Nagar organized an annual inter-institutional technical Fest "Technovation-2017".

The event received registration from around 30 institutes in various activities and witnessed huge participation from institutes of NCR and far off places with about 300 participants. The event comprised of total 9 activities. Technovation-2017 was full of fun, great display of talent, commitment and above all a healthy spirit of participation in all activities.

Technovation-2017 was inaugurated by lamp lightening by Honorable Vice Chairman, I.T.S-The Education Group, Shri. Arpit Chadha, Chief Guest, Prof. (Dr.) S. K. Kak, Formal Vice Chancellor, MTU University, Noida & CCS

University, Meerut, Dr. A. K. Puri, Director General, I.T.S, Mohan Nagar, Ghaziabad, Dr. Sunil Kr. Pandey, Director-IT, I.T.S, Mohan Nagar, Ghaziabad, Prof. Smita Kansal, Counselor of CSI Student Branch @ I.T.S & Coordinator of Technovation-2017, other Coordinators of Technovation-2017, Prof. Saurabh Saxena & Prof. Chandra Mani Sharma.

While addressing the gathering Director General, I.T.S, Mohan Nagar, Ghaziabad, Dr. A. K. Puri appreciated the efforts of Department of I.T. and expressed his happiness for the huge participation in event. He wished best luck to all the participants and welcomed them at I.T.S. Prof. Smita Kansal presented a brief about the CSI Student Branch @I.T.S and about the event. Prof. Puja Dhar, Chairperson-MCA Programme brief about the MCA Course.

Chief Guest of the event, Former Vice Chancellor, MTU, Noida & CCS University, Meerut, Dr. S. K. Kak blessed and motivated the participants with his words of wisdom. He emphasized that one should chase one's passion with

commitment and hard work. Key Note Speaker, Well known name of CSI and in IT Field, Prof. M.N Hoda addressed the participants and shared his experience. His thought provoking address engrossed the audience.

There were total 9 activities in the Technovation-2017 including C-Cruncher (C Programming Contest), J-Factor (Java Programming Contest), Brain Treasure (IT Quiz) , Web Duniya (Web Designing Contest), Canvas D (Digital Painting Contest), Soft Kriti (Project Presentation Contest), Intellecta (Paper Presentation Contest), Mobi-APP Show (Mobile Application Demonstration), and Charcha (Debate Contest).

At the end of event all the winners were felicitated by the Director-IT, Dr. Sunil Kr. Pandey, Chairperson-MCA, Prof. Puja Dhar, Coordinators of Technovation, Prof. Smita Kansal, Prof. Chandra Mani Sharma & Prof. Saurabh Saxena and other faculty members of Department of I.T. with Certificates, Medals and Cash Prize. Overall the event was a learning with fun and enjoyment.

Industrial Workshop on "C" for MCA Final year Students

Corporate Resource Centre of Department of I.T., ITS, Mohan Nagar organized 2-days Industrial workshop on "C Programming" for MCA V Semester students on 4th and 5th April -2017. The workshop was attended by 80 students of MCA final year.

Mr. Anurag Dubey, HR Manager, Mr. Sagar Bhalla and Mr. Vipul Saini , Senior Software Engineer from CEBS Worldwide, Noida were the resource person. It was an effort of the CRC-IT to make the students aware about the current market trends of C and its implementation in real life scenario. This workshop was to motivate the students to practice the C related question for upcoming placement drives. It also covered the socket programming and demonstration of socket programming by simple chat application. This workshop was coordinated by Mr. Kumar BalMukund and Prof. Abhay Ray.

Grand Finale of SAMVAD-VI for MCA Students on 10th April, 2017

In the present scenario of the recruitment drive of the IT companies of any size, they are looking their workforce on the board well equipped with the business communication skill essentially English in addition to the sound aptitude and attitude with suitable leading IT degree.

Our MCA students are from different walk of life, family background, hailing from far flung areas with vernacular languages. There is need to sharpen the communication and articulation skills for the holistic development of a student and eventually ready to move industry. Skill Development Cell of Department of I.T, I.T.S, Mohan Nagar conducted the grand finale of SAMVAD on 10th April,

2017 in which students of MCA participated and had open discussion on the agenda "Current challenges for "New India are aligned with present Indian Govt. Policies". At the end of Group Discussion three winners were announced and felicitated with trophy & Certificate by Director-IT, Dr. Sunil Kr. Pandey, Faculty moderators Prof. Puja Dhar & Prof. K.P.Singh and other faculties of Department of I.T.

The winners of SAMVAD were Richi Gupta who secured first position, Anupriya Pathak secured second position and third prize was won by Mayuri Verma. Every Semester students of MCA take participation in SAMVAD with full enthusiasm.

He discussed about Historical evolution and current state of ERP and presented a focused discussion on Career options Jobs Profiles with ERP Professionals, ERP Perimeter, ERP Vendors and Next Generation ERP. During the Discussion he has also talked about various ERP vendors like SAP, Microsoft Dynamics, Oracle Applications, IFS Applications, Sage X3 and Tier2 Vendors, ERP Cloud etc.

This was an interactive & knowledge enriching session. The session was organized in series of efforts to create a platform for MCA Students to meet, listen & interact with the practitioners and experts who have contributed immensely in their domain. Mr. Abhishek Jain also interacted with Students and answered the queries raised during the session. Dr Umang, Coordinator of this session, concluded the session with closing remarks and delivered vote of thanks. It was informative and learning session all participating MCA Students.

Prof. Sunil Kr Pandey, Director (IT) received Top-100 CISO Platform "Special Recognition Award of India's Top IT Security Influencers & Community Contributors"

Prof. Sunil Kr Pandey, Director (IT), I.T.S, Ghaziabad was invited in Decision Summit – 2017 organized by CISO Platform held during 12th & 13th May, 2017 at Hotel Hayat, Pune. In this function Prof. Pandey was awarded with Top-100 CISO Platform "Special Recognition Award of India's Top IT Security Influencers & Community Contributors" during its Decision Summit-2017.

Prof. Pandey was also nominated as a member of CISO Platform's Task

Force Team to promote Awareness about Cyber Security among schools & colleges. This 02-days event was full of amazing learning, wonderful exposure and a great networking.

Industrial visit to SOPRA for MCA Students on 1st June, 2017

Department of I.T organized an industrial visit for MCA IV Semester students on 1st June, 2017 to SOPRA. 27 Students of MCA-IV semester with Prof. Varun Arora and Prof. Smita Kansal visited SOPRA. All members were escorted by Ms. Swati Chawla at SOPRA. All the students were taken for facility tour to SOPRA. Mr. Soheb Tahir conducted a session on Soft Skills. He also discussed about How to be employable? and also suggested the students to acquire background knowledge on any topic that they want to learn. They should have the habit of questioning.

While addressing the students he also advised them to do productive things and think productive. He explained the importance of English language for career growth. He also emphasized on communication skills that will help students to get better job opportunities. Session was full of knowledge and useful for the students. Students really enjoyed the session. Students made the session interactive.

2-days workshop on "IoT" for MCA Students

Department of I.T. conducted 2-days workshop on "Internet of Things" for the MCA students during 14th June, 2017 & 15th June, 2017. Prof. Abhay Kumar Ray , Prof. Rakesh Roshan and Prof. Smita Kansal from Department of IT were the key resource person for this workshop. Objective of the workshop was to make students understand and take better use of the Arduino Uno, components of Arduino Uno, Application of different sensors, Integration of sensors to the Ardunio chip, Program writing, development and implementation of application using Arduino Chip and different sensors.

After attending this workshop students can develop Arduino chip and sensor based aplications. Pre-requisite: Knowledge of C, C++ .The session was based on Introduction and application of Arduino chip and sensors is conducted in Lecture cum Discussion mode. It covered the Fundamentals of Internet of Things ,

Introduction of different IoT supporting hardware including Microcontrollers chips and Micro Processor chip , Different kinds of sensors like light sensors , Ultrasonic Sensors, Introduction to Arduino UNO chip and Raspberry pi, Programming in C/C++ , Programming in C++ for LED , Ultrasonic Sensor, Push Buttons ,Light sensors , Temperature and humidity sensors etc. Total 56 students from MCA final year had participated in this workshop.

Congratulations to our MCA students for once again bringing laurels to the institute

Faculty Participation in External Events

Date	Faculty	Events
18th April, 2017	Dr. Sunil Kr. Pandey, Prof. Puja Dhar, Prof. Smita Kansal, Dr. Umang Singh and Prof. Rakesh Roshan	Attended an award ceremony for receiving Best MCA College award by CEGR at International Centre, New Delhi
3rd May, 2017	Dr. Sunil Kr Pandey, Director (IT), I.T.S, Ghaziabad	Attended Conference on "Secure the Future Workspace" event organized by IDC & HP at Taj Palace, New Delhi
17th May, 2017	Dr. Sunil Kr Pandey	Attended a Conference "Business Security Redefined event" organized by Microsoft Corporation & Business World at Hotel Eros, New Delhi
12th May - 13th May, 2017	Dr. Sunil Kr. Pandey (Director-IT)	Received Top-100 CISO Platform "Special Recognition Award of India's Top IT Security Influencers & Community Contributors" at Hotel Hayat, Pune
19th May, 2017	Dr. Umang	Delivered Guest Talk on "Adhoc Net Works and FANET at BVICAM
3rd June 2017	Dr. Umang	Participated in Conclave on "Design for Sustainability at University of Delhi, North Campus
4th – 5th June 2017	Dr. Sunil Kr Pandey	Invited as keynote speaker in National Seminar on "Big Data, Cloud Computing Analytics & Mathematical Applications" at Magadh University Bodhgaya
4th – 5th June 2017.	Prof. Abhay Kr. Ray & Prof. Rakesh Roshan	Taken a session in National Seminar on "Big Data, Cloud Computing Analytics & Mathematical Applications" at Magadh University Bodhgaya
9th June, 2017	Dr. Sunil Kr. Pandey	Attended Data Center Summit & Awards – 2017 also received award of Data Cnter Summit & Awards – 2017 for "Capacity Management" of ICT Infrastructure, services & facilities and at I.T.S, Ghaziabad held at ITC Gardenia, Bangalore
5th to 10th June ,2017	Dr. Vidushi Singh	Attended Faculty Development Programme on Information System Frontiers 2017 organized by Jaypee

		Institute of Information Technology, Noida.
